## SKILLS

---

### Languages

Proficient with Java, Python, JavaScript, TypeScript, HTML, CSS.  
Capable with C, SQL, Bash.

### Software

Operating Systems: Windows 10, Linux.

Libraries and Frameworks: React, React Native, Material-UI, Node, Express, Flask, Firebase, JDBC, Servlet.

Tools: Git, AWS (Lambdas, API Gateway, RDS, EC2), Docker, nginx, Expo, Postgres, Cassandra.

### General Knowledge

Agile Project Management

Object Oriented Programming

Full Stack Development

Production Deployment and Monitoring

Database Administration

Microservice and serverless architecture

## WORK EXPERIENCE

---

### SarVia Group

August 2020 - Present

*Software Engineer*

- Worked on an agile team as a contracted software engineer
- Developed a mobile app for a subscription based cigar business using React Native, Expo, Python, Flask, Postgres, Firebase and AWS
- Developed a web based application for a construction contracting conglomerate to manage data on different job sites using React, Node.js, Express, Cassandra, and AWS
- Managed the CI/CD and production deployments for both the mobile app and web app
- Wrote and reviewed technical documentation for both projects

## PROJECTS

---

### Vocabulary Expander

[View Source Code](#)

- Developed myself as a personal project.
- Created a web application that takes a text and returns word frequency to identify commonly used words using HTML, CSS, and React
- Implemented text filtering and thesaurus functionality using a REST API deployed in Amazon API Gateway with a backend built using AWS Lambdas and Python

### Barebones Auction Website

[View Source Code](#)

- Worked in a group with three other students to create a simple auction website
- Created a simple proof of concept for an auction website
- Guided development by defining coding standards and system architecture using MVC
- Designed and implemented the front end using HTML, CSS, Javascript, and JSP with tag files for easy templating
- Implemented the back end using Java, JDBC, and MySQL

## EDUCATION

---

Rutgers University, New Brunswick, NJ

Major: Computer Science

GPA: 3.635

Honors: Cum Laude

Sept 2017 - May 2020
